The image shows a hand holding a tablet that displays a Power BI dashboard. The dashboard includes several data visualizations: a bar chart for 'Deuda por Antigüedad', a line chart for 'Evolución facturación', and a gauge chart for 'Índice de Satisfacción'. Key data points are highlighted in callouts: 'Deuda Actual' at 4,619.72 mil€, 'Deuda Anterior' at 3,464.56 mil€, 'Recurrente' at 4,650.48 mil€, 'Facturación Total' at 5,796.95 mil€, and 'Índice de Satisfacción' at 4.15. The background of the dashboard shows a grid of various charts and tables.

- NAV**  An ERP to meet all your needs. Connect and link your sales, operations, accounting and much more.
- Azure**  Based on the Microsoft Cloud platform: Azure. No expensive investments in servers or infrastructure. Always the latest version.
- Electronic banking**  It automates the accounting of all your banks with just a click, importing the transactions of your accounts and displaying the treasury position of all of them without having to access your online banking.
- OCR**  Automatic invoice accounting and recognition, saving time and resources, optimizing processes with its approval system via workflows.
- Electronic Signature**  Integration of the signature and automatic sending of contracts and documents in the platform with total security
- Dashboards**  Creation of customized reports with the relevant information of your business and delivery of the updated information on sales, collections or any KPI to the key people of your organization.
- Payroll Portal**  Get visibility of the entire payroll process and integrate all the data with our Power BI report generator.
- Tax Connectors add-ons**  Send all your received and issued invoices to the Tax Agency platform
- Electronic invoicing**  Issue invoices for your clients from the ERP itself connected with the logistics or CRM module and reduce the collection period with the dunning letters and ageing reports.

An online platform, customized, without expensive implementation costs and delays

Only 10 days for the set-up  
Available to manage your international subsidiaries
